

# Hands On Traveling Exhibition

Turn-Key - we install in 3 days or less

## FACT SHEET

Size: +/- 1500 square feet

The exhibition features an amazing collection of 169 dinosaur eggs representing six different major groups of dinosaurs. All are brought to life with colorful paintings showing dinosaurs as parents and sculptures of babies ready to hatch. Video presentations and interpretive labels summarize the latest findings of dinosaur experts.

### The exhibition includes:

- Collection of 54 real fossil dinosaur eggs and nests - plainly marked with this graphic
- A real fossil dinosaur leg bone for visitors to touch
- 115 Cast dinosaur eggs and nests for touching and digging
- 21 Hands on exploration stations
- 8 Animated interactive computer games
- 46 Cast hatchlings and young
- 7 Life-like models of embryos by well known paleo-sculptors
- One full scale fleshed adult dinosaur with two young
- 12 Framed paintings showing dynamic and colorful interpretations of dinosaur family life
- 6 Framed photographs by National Geographic photographer and Oscar winner Louie Psihoyos
- 14 Informative scientific panels punctuated with more stunning photographs by Louie Psihoyos
- 4 Animated video presentations featuring well known dinosaur experts including Robert Bakker, Philip Currie, Mark Norell and others
- Visitor Adventure Guide
- Spanish translation handout for bilingual visitors
- Feature length Dinosaur Eggs and Babies film (57 minute) on DVD
- Designer's package with customized floor plan, color pallet and detailed component list
- Press kit with exhibition logo and graphics, font menu, text and images approved for exhibit promotion
- Education package with Docent Gallery Guide and 46 page Educator's Guide with teaching standards, activities and references
- Flexibility to add specimens from museum's own collection
